Lodge Lukara

About us

Sumé, Julene, L'Wyk, & Luka Jansen van Vuuren

We would like to welcome you to Leopard Legend Hunting Safaris in Namibia.

L'wyk and Julene are the driving force behind Leopard Legend Hunting Safaris, a small family run business.

We have hosted hundreds of clients successfully over the past 18 years.

Big Game Professional Hunter, Lwyk Jansen van Vuuren and his wife Julene were born and raised in Namibia. Our main aim is to ensure a successful safari full of memorable experiences. We are very family friendly and would welcome your children to come and experience Africa.

Our team is committed to giving each client a memorable safari, with our primary aim in developing our people and wildlife. Conservation through hunting is the way we enrich the lives of the local people and promote wildlife sustainability.

In addition to this, we believe passionately in excellent service, good food and clients who become great friends.

Our true Namibian hospitality and friendliness will ensure an African hunting safari that will never be forgotten. After the safari you will leave not as an acquaintance but as a friend.

* The client declares himself/herself fit to undertake the safari.

Big Dangerous Game & Predator Hunts

Dangerous game hunts in Namibia offer the modern day big game hunter a wide variety of choices. All of the dangerous seven big game Animals of Africa are available in Namibia and are currently huntable. The terrain that these big game animals are hunted in varies widely and this makes hunting in Namibia a popular place to hunt dangerous game. One of the primary destinations for dangerous game hunts in Namibia is the Caprivi Strip. The Caprivi Strip is a narrow extension of land that extends westward from Northern Namibia all the way to the Zambia and lies between Angola and Botswana. The Caprivi Strip is a primary big game hunting destination in Namibia and offers all of the big 5 except rhino. Elephants travel with regularity between Angola and Botswana's Okavango Delta. Large herds of buffalo roam these areas also. Hippopotamus and crocodile are found in the Linyanti River and in the Okavango River as it passes through the Caprivi Strip. Cape buffalo hunting in the Caprivi is recognized as one of the great dangerous game destinations in Africa to hunt a trophy Cape buffalo. The area is known for having good numbers of buffalo and also produces some magnificent trophies.

Free Range Conservancies, North-west Namibia

The Conservancies covers more than 1 million acres of pristine, breathtaking, unspoilt, unfenced Africa located in the North-West of Namibia in the Kunene region. In the west, the conservancy borders the Skeleton Coast Park. The conservancy is tribal land owned and inhabited by the Otjiherero, Damara and Himba tribes. Sesfontein is named after six natural springs. The hunters bush camp can accommodate 6 hunters and is situated in a thick Mopani Tree Forest. This part of the Kunene region lies in the heart of the biggest free-roaming Black Rhino population in the world! Desert Lions, Desert Elephant and plenty of Leopards are also found here. Four of the Big 5 will be prevalent in this magnificent untouched land that you will hunt on.

Accommodation: Tented safari camp, en-suite bathroom. Our own chef to prepare African cuisine for each individual client's needs.

The Pick-up/drop off airport is Hosea Kutako International airport at Windhoek, and ground transportation is done to Leopard Legend Lodge and to the Conservancy. Private Air Charter service available from Windhoek to the conservancy at client's own cost.

TROPHY GAME AVAILABLE:

Leopard, Gemsbuck, Springbuck, Hartmann's Zebra, Ostrich, Jackal, Baboon.

Since emphasis is put on exclusivity and individual service, we only accept one group in camp at a time.

Our main aim is to ensure a successful safari full of memorable experiences, good quality trophies and everlasting friendship.

Mangetti National Park Concession

The Mangetti Hunting Concession is situated in north-eastern Namibia, in the Kavango West Region, within the Mangetti National Park and the nearby Kavango West community areas. This hunting area covers more than 2 million acres.

This concession is well known for its community-based conservation model, where regulated trophy hunting supports local livelihoods and effective wildlife management. Mangetti National Park has a very high population of big and dangerous game, including elephant, black rhino, and leopard.

Elephant hunts in this area are conducted in the traditional way, through on-foot tracking. It is a magnificent area for elephant and leopard hunting and is ideal for hunters who value conservation and community impact.

Experience the privilege of true Africa, where every track tells a story. Where ethical hunting meets true wilderness.

Hunt with purpose, hunt Mangetti.

Cheetah Farm Visit

A photographic safari can be an add on to your hunting safari or we can make you, the client, a **tailor-made photographic safari**. We usually take clients to Etosha National Park through Damaraland to Namibia's spectacular West Coast where the Namib dunes is a must to see.

These tours are easy to combine with a hunting safari, usually after a successful hunt. We are situated only a mere 100 miles away from Etosha National Park so if you don't have time for a week long Photographic Safari but would like to take one day off your hunting safari we easily arrange a day trip to Etosha National Park.
